SUMMERSIDE GREEN
CREATING BUSINESS OPPORTUNITIES THROUGH INNOVATION

City of Summerside
Prince Edward Island

LET’S BUILD THE FUTURE TOGETHER!
The City of Summerside

is looking ahead to more innovation in the green technology sector by building on the infrastructure already developed. Across North America communities look to Summerside as a best practice model for leveraging sustainable green development as an integral part of an economic development strategy.

The variety of potential applications that can be developed and tested in a real-life environment in Summerside are endless. A few that resonate with existing priorities and key investments are:

- Electric Storage and Grid Integration
- Electric Vehicles (including Bus and Passenger Vehicle)
- Electric Car Charger Solutions with Battery Storage
- Security and Surveillance
- Appliance Control
- Residential Environmental Controls
- Smart Home Innovation
- Medical Home Care Solutions
- Solar Energy Integration
- Bio Fuel from Waste
- Advanced IT Development
- Interoperability for Big Data

Focusing on Blackout protection & Energy Storage, AKA and the City of Summerside PEI are partnered to improve the energy storage balance for the municipality and region, while offering a test environment and integration partner for your innovative technology.

Partner with us in Summerside & PEI
