Project Proposal eMunicipality

Mohamed Fakihi, CEO Kratos Technology
mfakihi@kratostechnology.com

We believe that the future of e-Government is in bridging the gap between governments and citizens, who want to be actively involved in their community.

Proposal Introduction (1)

People and their environment are changing

High demand for modern public services

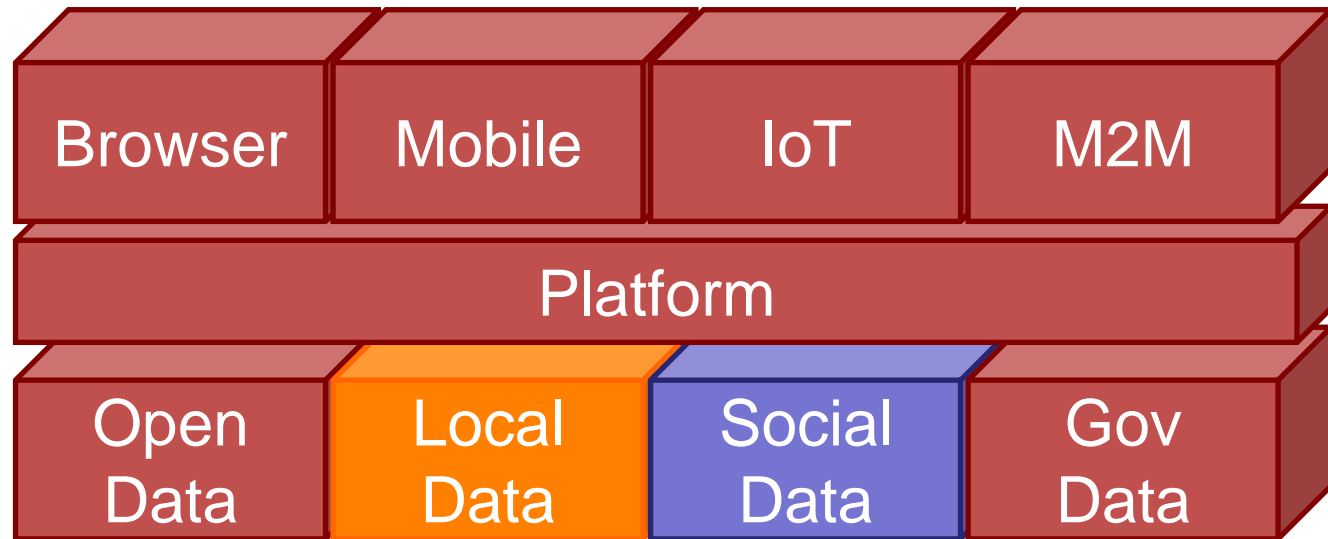

- ✓ Efficient
- ✓ Open and transparent
- ✓ Citizen-centric

Proposal Introduction (2)

Cross-device platform:

1. New personalised public services that better suit the needs of users.
2. Reduced administrative burden of processes.
3. Increased transparency of and trust in public administrations.

Plan

1. Directory of curated open data
2. Normalised endpoints and attributes
3. Communication layer with standardised format
4. Ready to integrate applications and widgets

- E-Government
- Cloud Technology
- SaaS

- IoT
- Artificial intelligence
- Open data
